0 10  
DO NOT SCALE

- GENERAL NOTES**
- New woodland planting to be laid out in a random arrangement to 'blur' the extent of earthworks, stepping in and out of earthworks footprint to create a naturalistic appearance.
  - All drainage elements shall be naturalistic and sensitively designed and planted to integrate with their local landscape setting.
  - Earthworks around SuDS (Sustainable Drainage System) ponds will be graded out to maintain landscape fit. SuDS layouts shown are indicative only.
  - Earthworks profiles shall be varied to reflect existing landscape, long consistent profiles shall be avoided.
  - The proposals incorporate the land required for both temporary construction activity and permanent works. Where land sits outside the permanent works footprint and is not required for construction or mitigation, the existing vegetation shall be retained.

- Proposed Scheme (Stage 3)**
- Existing Buildings
  - Existing Railway - Highland Main Line
  - Existing Woodland Retained outwith the Scheme
  - Existing Woodland Retained within the Scheme
  - Existing Watercourses and Waterbodies
  - SuDS Ponds
  - Re-aligned Watercourse
  - Existing Contour
  - Cross Section Locations
- Landscape Mitigation**
- Proposed Grass Verge Mix
  - Proposed Species Rich Grassland
  - Proposed Marginal Planting
  - Proposed Mixed Woodland
  - Proposed Coniferous Woodland
  - Proposed Wet Woodland
  - Proposed Scrub Woodland
  - Proposed Scattered Tree Groups
- Ecological Mitigation**
- Proposed Otter Fence
  - Water Vole Mitigation Area
  - Confirmed Bat Roost: European protected species licence and associated mitigation required
