

## Forth Crossing Bridge Constructors

HOCHTIEF Solutions  
American Bridge International  
DRAGADOS  
Morrison Construction

Dear Neighbour,

We are writing to provide you with notice of planned works on the Forth Replacement Crossing (FRC). FCBC, the Principal Contractor working on the FRC Principal Contract on behalf of Transport Scotland will be carrying out testing works on the existing Ferrymuir roundabout.

Work will be carried out on the night of Monday 15<sup>th</sup> June between 8pm and 6am when the roads have least traffic running on them and we are targeting completion on that night. Should we encounter delays the work will continue into subsequent nights under the same arrangements. We expect the work to be low impact.

The plant to be deployed will include a trailer mounted coring rig with a diesel generator, works vans and floodlights operated by generator. There will be a combination of lane closure, mini contraflow and 4 way traffic lights depending on the works' location and the Traffic Management team will apply the appropriate arrangement to the various locations.

We would like to take this opportunity to apologise, in advance, for any inconvenience our activities may cause and also to thank you for your patience and consideration to date. The works as described above are an essential part of the overall Forth Replacement Crossing project, which is necessary due to concerns over the long term viability of the existing road bridge. The new crossing will maintain a vital link in the east of Scotland road network which is key to the wider Scottish economy.

**For up to date information on the project please see Transport Scotland's FRC project website [www.forthreplacementcrossing.info](http://www.forthreplacementcrossing.info). Should you have any queries, please contact our email [enquiries@forthreplacementcrossing.info](mailto:enquiries@forthreplacementcrossing.info) or our Hotline on 0800 078 6910. In addition, our Contact and Education Centre, located adjacent to the Forth Road Bridge offices on the south side of the existing Forth Road Bridge, is manned 09:00hrs to 17:00hrs Monday to Thursday, 09:00hrs to 16:00hrs on Fridays and 10:00hrs to 16:00hrs on Saturdays to deal with enquiries and to supply information. Additionally, access to the Exhibition room in the building is available between 10am and 4pm each Saturday through to the end of October 2015 and there are also technical presentations on the last Friday of every month in the same period, all as advertised on the Project Website.**

Issued to – Residents in the vicinity of the works described at Scotstoun, QDCC and BRIGS.
